

# Ideation Phase

## Brainstorming session

Date	22 sep 2022
Team ID	PNT2022TMID53545
Project Name	Project – Analytics of health care dataset
Maximum Marks	4 Marks

### Brainstorming session

**Brainstorm & Idea prioritization**

Use this template to capture your ideas and prioritize them. You can use the template to capture your ideas and prioritize them. You can use the template to capture your ideas and prioritize them.

**Define your problem statement**

Problem statement: How can we use data to improve patient health?

**Brainstorm**

Brainstorming is a group activity that encourages creative thinking. It is a process of generating a large number of ideas for solving a problem or addressing an issue. The ideas are then evaluated and prioritized based on their feasibility and potential impact.
